

## **Emergency Water Supply during Hurricane Earl**

Residents of Nantucket who are on private wells and lose power caused by Hurricane Earl will be able to secure potable water from the Wannacomet Water Company Office at 1 Milestone Road and the drinking fountain on the bike path in front of the Siasconset Water Department Office at 319 Milestone Road in Siasconset. At each location there will be a marked spigot to allow people to fill their own containers at no cost.
